ABOUT US

From Yarn to Finishing Under One Roof

Yorka Textile was founded in 2014 in the Denizli Organised Industrial Zone. In our 5,000 m² indoor facility we carry out every production stage in house, from yarn to finishing: towel weaving, digital sublimation printing, cutting, sewing and packing.

Around 80% of our output is digitally printed towels and bathrobes. We also produce fleece blankets, kids ponchos, baby towels and promotional textiles. For customers who prefer to print in their own facility we supply ready-to-print towels and fabric.

Our products are certified to OEKO-TEX® Standard 100 Class 1. We hold SEDEX SMETA 4-Pillar and Disney FAMA audits, and export to 22 countries, mainly across Europe, the Middle East and Russia.

PRODUCTION FLOW

01	Yarn	Cotton and microfiber yarn sourcing, incoming QC
02	Weaving	Towel fabric on warp-knitting machines
03	Digital Printing	Sublimation printing with water-based dyes

Packaging	Individual bag, carton box, pallet

Beach Towel

With its soft cotton surface, this beach towel dries you gently without irritating the skin and feels just as good by the pool or at home as it does on the sand. Its photo-quality print keeps bright, vivid colors that will not fade in the sun or in chlorinated water, and the towel stays highly absorbent while drying quickly.

Printed with your own logo or design, it makes a standout promotional gift for corporate events, summer giveaways and brand campaigns. Your artwork is printed edge to edge in photo quality with water-based inks that are safe for skin and the environment.

PRINT AND PATTERN OPTIONS

FREQUENTLY ASKED QUESTIONS

What is the minimum order quantity?

Our minimum order quantity for printed beach towels is 250 pieces.

What is the difference between Emma and Harley quality?

Harley quality towels have a velour-soft microfiber surface. Emma quality towels have a peach skin effect microfiber surface that showcases the print better.

Which printing techniques are used?

We produce our beach towels with digital sublimation printing; the print is permanent, vibrant and highly detailed.

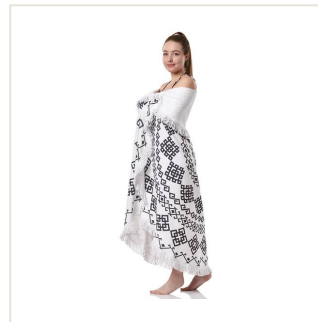

Round Beach Towel

Our round beach towels, the preferred choice for those seeking an elegant style at the beach, are produced with fringe or piped edge options. Available in a standard 150 cm diameter, they feature high water absorbency and quick-drying properties, and carry OEKO-TEX Standard 100 certification.

Produced with custom designs for corporate gifts, hotels and promotional products, our round beach towels deliver vibrant and long-lasting colours through digital sublimation printing.

Yorka is one of Denizli's established towel fabric manufacturers in Turkey and supplies Emma for wholesale orders, ready for printing or plain dyed.

Vera Microfiber Suede Fitness Towel Fabric

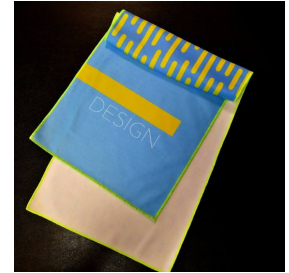

Vera is a towel fabric woven from 100% highly absorbent microfiber yarn. Both sides are the same, with a soft suede look. It absorbs water as well as cotton, dries quickly and stays odour free when left damp. It is around 40% lighter than cotton towelling, keeps its colours after repeated washing and does not go linty.

It is a preferred base fabric for sports and fitness towels, and works equally well for beach, pool and travel towels as well as promotional and corporate gift items. Vera is supplied ready for sublimation printing or plain dyed, so brands and printers apply their own designs in house.

TECHNICAL DETAILS
